SAFETY and GENERAL INFORMATION

Save these instructions. For your safety *read, understand, and follow* the information provided with and on this stand before using. The owner and operator of this equipment shall have an understanding of the stand and safe operating procedures before attempting to use. The owner and operator shall be aware that use of this product may require special skills and knowledge. Instructions and safety information shall be conveyed in the operator's native language before use of these jack stands is authorized. If any doubt exists as to the safe and proper use of these stands, remove from service immediately.

Inspect before each use. Do not use if broken, bent, cracked, or damaged parts (including labels) are noted. Any stand that appears damaged in any way, operates abnormally or is missing parts, shall be removed from service immediately. If you suspect that the stand was subjected to a shock load (a load dropped suddenly, unexpectedly upon it), immediately discontinue use until the stand has been checked by a factory authorized service center (contact distributor or manufacturer for list of authorized service centers). It is recommended that an annual inspection be done by qualified personnel. Labels and owner's manuals are available from manufacturer.

PRODUCT DESCRIPTION

Blackhawk Automotive High Reach Supplementary Stand is designed to help prevent the tipping/ rocking of a vehicle while the vehicle is engaged on an automotive lift. For use **ONLY under a properly secured automotive lift.** It is to be used in pairs to **stabilize** a vehicle during service. It is **not** intended to support the lifted load, only to stabilize the load as work is being performed under a **properly secured lift**. The rated capacity of this device is intended to be used as a reference of the working load that this stand is capable of sustaining. The working load is **NOT** increased if used in pairs. The working load of a pair of stands **shall not** be considered to be more than the rated capacity of a single stand. The rated capacity of this stand is **4000 lb**.

***NEVER** use high reach supplementary stand to support a vehicle! Use a pair to prevent vehicle tipping/rocking while vehicle is on an automotive lift.*
