

## HYDRAULIC PRESSURE GAUGE

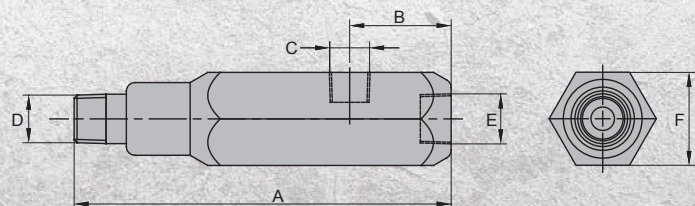

| Gauge Type | Model Number | Face Diameter (in) | Thread (in) | Pressure Range |       | Graduation             |                        |                        |                        |
|------------|--------------|--------------------|-------------|----------------|-------|------------------------|------------------------|------------------------|------------------------|
|            |              |                    |             | (psi)          | (bar) | Major Graduation (psi) | Minor Graduation (psi) | Major Graduation (bar) | Minor Graduation (bar) |
| Dry        | GD2514       | 2.50               | 1/4"-18NPTF | 0-10,000       | 0-700 | 1,000                  | 200                    | 100                    | 10                     |
|            | GD4014       | 4.00               |             |                |       | 2,000                  | 100                    |                        |                        |
| Wet        | GW2514       | 2.50               |             |                |       | 1,000                  | 200                    |                        |                        |
|            | GW4014       | 4.00               |             |                |       | 2,000                  | 100                    |                        |                        |

## PRESSURE & WEIGHT GAUGES

- Gauge indicates hydraulic pressure and weight
- Pressure and weight gauges can be ordered for all BVA cylinders
- Call if the cylinder is not listed

| Model Number  | Gauge Type | Face Diameter (in) | Use with Cylinders                  | Thread        |
|---------------|------------|--------------------|-------------------------------------|---------------|
| GW2514-0100LB | WET        | 2.50               | H0501 THROUGH H0509                 | 1/4" - 18NPTF |
| GW2514-0224LB | WET        | 2.50               | H1001 THROUGH H1014, HD1010, HD1012 | 1/4" - 18NPTF |
| GW2514-0314LB | WET        | 2.50               | H1501 THROUGH H1514                 | 1/4" - 18NPTF |
| GW2514-0515LB | WET        | 2.50               | H2501 THROUGH H2514                 | 1/4" - 18NPTF |

## GAUGE ADAPTER

| Model Number | Dimensions (in) |      |             |             |             |      |
|--------------|-----------------|------|-------------|-------------|-------------|------|
|              | A               | B    | C           | D           | E           | F    |
| CF3814       | 5.12            | 1.38 | 1/4"-18NPTF | 3/8"-18NPTF | 3/8"-18NPTF | 1.25 |
